The Eighth District Dental Society makes every effort to present high caliber speakers in their respective areas of expertise. The presentations of these speakers in no way imply endorsement of any opinion, product, technique or service in the course of any presentation. Eighth District Dental Society specifically disclaims responsibility for any material presented. Programs may be subject to change due to circumstances beyond our control.

Eighth District Dental Society is an ADA Recognized Provider approved by New York State Dental Association. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Eighth District Dental Society designates this activity for two (2) continuing education credit hours.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at www.ada.org/CERP.

Eighth District Dental Society designates this activity for eight (8) continuing education credit hours.

Creating Predictable Results

Stimulate your creativity as we examine how to handle situations, from minor to complex, that develop during routine treatment. Learn how to turn potential failures into success as we delve into all aspects of patient care from diagnostics to advanced restorative care. Let my 35 years of screw ups and learning from them, help guide you to more successful strategies in patient care.

COURSE OBJECTIVES

At the end of this course, participants will:

- * Learn how new technologies can be incorporated to help problem solve complex situations
- * Examine new and old products that can make our lives easier during routine dental treatments
- * Leverage the inevitable failures that are associated with problems created by neglect and poor home care
- * Develop techniques that help to prevent these unintended consequence

SPEAKER - Dr. Mark Malterud, DDS,MAGD

Dr Malterud is a 1983 graduate of the University of Minnesota School of Dentistry and practices General and Family dentistry in St. Paul along with being an adjunct faculty member of the University of Minnesota Continuing Dental Education Department. His commitment to dental education not only as a student but also as an educator has him personally attending well over 100 hours of dental continuing education each year. Dr. Malterud's practice focuses on comprehensive cosmetic dentistry incorporating Minimally Invasive Dental Procedures. His passions in these areas have allowed him to lecture locally, nationally and internationally. He has trained at the L.D. Pankey Institute and completed the entire curriculum of their educational continuums on comprehensive dentistry and has attained the level of Master in the Academy of General Dentistry. In 2008 he was awarded a Life Long Learning and Service Recognition Award by the Academy of General Dentistry. Dr. Malterud is an active member of the American Dental Association, and its state and local components along with the Academy of General Dentistry (where he just finished a 6-year term as the Trustee for Region 10. He is a Past Minnesota AGD President and currently serves on the MN AGD Board along with Chairing some AGD task forces). He belongs to various local and national dental societies and study club groups. As an early user of the NTI splint he has had an opportunity to help with creating refinements for the designs and uses of the splint. Dr. Malterud also consults with various other dental manufacturers on product development and testing and is a proud member of the Catapult Lecture group.
