Paediatric Dentistry for the General Practitioner Bloopers, Blunders & Bailouts

Course Description:

Learn from my mistakes...and avoid making them yourself!

Life is full of bloopers and blunders, and our practices are no different. I will present everything that could...and has gone wrong, from patient and parent communication and management problems to failed treatments. Learn how to bail out of these problems with tips on communication and sound treatment options.

Learning and observing what not to do can be of more value than studying pictures of perfect dentistry!

Course Objectives:

- Learn, from case studies, how to avoid deficiencies in communication and treatment.
- Learn reliable treatment techniques.
- Learn to choose materials that work for you and your paediatric patient.
